***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/11/2008 has been entered.

**DETAILED ACTION**

***Terminal Disclaimer***

2. The terminal disclaimer filed on 11/11/2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the full statutory prior patent US 6,754,906 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Response to Arguments***

3. Applicant's arguments with respect to claims 1-79 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 27-35 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Regarding Claims 27-35, the claims are directed to a method of generating a program guide which is not tied to any statutory subject matters. Therefore, they are non-statutory. The

Art Unit: 2426

Examiner suggests either explicitly or implicitly adding a statutory subject matter such as an apparatus or computer related device tied to the method to make it patentable.

***Allowable Subject Matter***

6. Claims 1-26 and 36-79 appear to be allowable.
